Learn PAS-X anywhere and anytime

Become an expert with the digital
training platform from Körber

Acquire the skills you need to unlock the potential of your business

Do you feel the pressure to constantly build up your team's expertise?

Our industry is changing. Digital manufacturing in life sciences is now the standard. As a PAS-X customer, you already have the software to stay ahead in this complex and highly regulated industry. With our instructor-led trainings and our E-learning program, you can apply a mix of training methods to the right group of employees, without straining cost and time.

Employees can learn in a self-paced manner about the PAS-X foundations and therefore allow for an easy integration into their daily work. For in depth understanding an additional day with a trainer in form of a blended learning is offered for selected classes.

Academy – E-learning at your own pace

The Academy from Körber is the central platform for your training. In addition to on-site instructor-led trainings, we offer a digital learning platform to help your team stay up to date – anytime, anywhere, and from any device. Online and on-demand, our digital learning solution is the fastest way to increase and retain PAS-X software adoption through targeted learning at your own pace.

Key users that already experienced instructor-led classroom trainings can also benefit from the Academy. As the industry evolves, so does our software and it can be challenging to stay up to date with newly introduced features. Key users get the opportunity to learn digitally and everywhere about new functionalities in PAS-X to enable for continuous improvement. Additionally, knowledge can be refreshed and maintained with the help of handy E-learning modules on specific topics.

Your key benefits

In-demand skills

Users acquire sought-after PAS-X knowledge that supports them in their daily work and helps them complete tasks faster and avoid costly mistakes.

Flexibility

Bite-sized and self-paced learning content allows users to attend courses anywhere, anytime.

Interactive learning

You benefit from engaging content that involves the learner and thus improves the understanding of each topic in addition to the video tutorials.

Always up to date

With an annual subscription for our learning platform, you can view content exactly when you need it and integrate the learning units into your everyday work. We always keep on adding new courses and role-specific learning units to our portfolio.

Role-based learning paths

The Academy provides a comprehensive collection of content suitable for specific user roles and reflecting their specific learning needs.

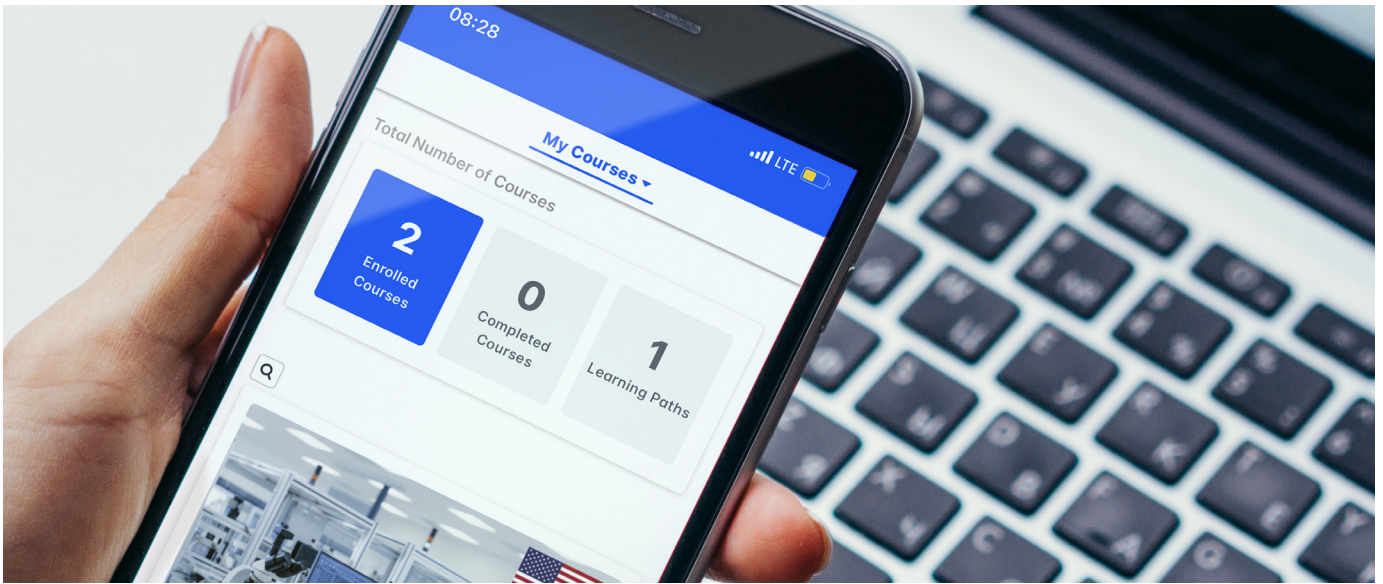

Resume-worthy certification

After a final comprehension check, learners receive certificates for successfully completed courses.

Instructor-led trainings for key users

We are actively developing our training program, but we are convinced that classroom training is the best option for key users. Therefore, you may request a training at a preferred date on site at your location. In addition, we also offer regular scheduled training courses at our modern premises in Lüneburg or at one of our international locations.

Please refer to the [training program on our website](#) for dates and locations.

Online trainings at a glance

You can choose from a broad selection of courses. In addition, we constantly offer new courses tailored to your needs.

“Since taking the PAS-X foundations class, I am much more proficient at navigating the system. I can create batch reports faster and with less questions. I see the Academy as an essential tool for my team.”

Academy user,
Senior manager at one of our customers

We always have you covered – everywhere

With local offices around the world our pharma software experts support you wherever your business is located.

Delivering the difference in pharma

Körber is an international technology group with about 13,000 employees, more than 100 locations worldwide and a common goal: We turn entrepreneurial thinking into customer success and shape the technological change. In the Business Areas Digital, Pharma, Supply Chain, Tissue and Technologies, we offer products, solutions and services that inspire.

At the Körber Business Area Pharma we are delivering the difference along the pharma value chain with our unique portfolio of integrated solutions. With our software solutions we help drug manufacturers to digitize their pharmaceutical, biotech and cell & gene factories. The Werum PAS-X MES Suite is recognized as the world's leading Manufacturing Execution System for pharma, biotech and cell & gene. Our Werum PAS-X Intelligence Suite accelerates product commercialization with data analytics and AI solutions and uncovers hidden business value.
